SUMMARY

Business Analyst with 3+ years across ERP implementation at NTT Global, freelance AI automation for SMEs and an M.Sc. in Data Science from Berlin. Owns work from stakeholder workshops and requirements through dashboards, automations and go-live. Live demos in the portfolio.

SKILLS

Business Analysis: Requirements engineering, BRD, user stories, stakeholder management, workshop facilitation, BPMN, gap analysis, root-cause analysis, change management, UAT

Strategy & Operations: Business cases, build-vs-buy evaluation, KPI design, process optimisation, unit economics, scenario analysis

Data & Reporting: SQL, Python (Pandas), Power BI (DAX, Power Query), Looker Studio, Tableau, Excel (Advanced), A/B testing, forecasting, data modelling

AI & Automation: AI implementation, LLM integration (Claude, MCP), prompt engineering, AI agents, workflow automation, n8n, Zapier, Apps Script, API integration

Tools & Delivery: Agile/Scrum, JIRA, Confluence, HP ALM, Git, Docker, Streamlit, FastAPI, PostgreSQL, Oracle Fusion

PROFESSIONAL EXPERIENCE

Independent Projects, AI & Automation **July 2026 - Present**

Self-directed, Berlin

- Shipped Bien Viage Desk, a FastAPI and SQLite operations app for a travel business: 20-document spec, 20-feature MVP, 180+ tests.
- Built an Electron and Ollama email assistant over 2 inboxes with a 4-layer local LLM classifier.

Freelance Business Analyst, Automation & AI **September 2025 - June 2026**

Self-employed, Berlin and Remote

- Automated intake, billing and dispatch for a travel SME with n8n, Zapier and Claude, cutting admin from 18h to 7h a week.
- Led a build-vs-buy evaluation for a logistics client and shipped a Power BI cost dashboard, ending manual weekly reporting.
- Built a weekly SKU stock review for a pharma business, enabling data-driven replenishment.
- Supported small Berlin businesses pro bono, including a salon's web page.

Part-Time Employment, SME Berlin GmbH & Co. KG **July 2024 - Present**

Associate Consultant, Functional Business Analyst **March 2022 - March 2024**

CES Ltd, embedded at NTT Global, Hyderabad, India

- Traced an 18% cost misattribution in Oracle Fusion with SQL root-cause analysis, stopping a wrong budget reallocation.

- Led Finance and IT workshops and BPMN As-Is/To-Be mapping, resolving a 6-month dispute over 4 shared KPIs.
- Replaced 15 Excel reports with 3 Power BI KPI dashboards, cutting reporting from 3 days to 1.
- Owned UAT for 3 Agile releases (BRDs, HP ALM, JIRA), with no critical defects open at go-live.

Junior Business Analyst, ERP Implementation **June 2021 - March 2022**
CES Ltd, client Herber Aircraft Services, Hyderabad, India

- Cut post-go-live incidents ~8% with SQL validation scripts for the Oracle EBS and Fusion rollout.
- Owned UAT scripts and JIRA defect tracking for 2 on-time ERP releases.

Growth & Analytics Intern **July 2020 - March 2021**
XPRS Techno Logistics, Hyderabad, India

- Built the first 4-channel ROI tracker in Excel, Google Analytics and Looker Studio.
- Analysed demand data to inform two city launches.

EDUCATION

Master of Science in Data Science **October 2023 - February 2025**
University of Europe for Applied Sciences, Berlin, Germany
Grade: 2.0 (gut)

- Thesis: LSTM forecasting with SHAP in a Streamlit app, 72% directional accuracy.
- Top modules: Data Engineering (100), Decision Support Systems (100).

Bachelor of Technology in Information Technology **June 2016 - November 2020**
Sreenidhi Institute of Science and Technology, Hyderabad, India
Grade: First Class

PROJECTS

Live demos and code: dhruvvkumar98.github.io/Portfolio

Return Radar | Python, Pandas, Plotly, Streamlit 2026

- Modelled Zalando's 2025 return-window change: 0-100 risk score, 90-day scenarios.

Decision Ledger | PostgreSQL, FastAPI, Streamlit, Docker 2026

- Logs business decisions and scores outcomes, with 7 SQL views, 42 tests and GitHub Actions CI.
